Portfolio

Highly motivated and detail-oriented web developer with a strong foundation in modern web technologies and a passion for creating intuitive, user-centric applications. Proficient in React, HTML, CSS, and JavaScript, with proven skills in collaboration, adaptability, and attention to detail. Known for building responsive and innovative solutions that drive digital success, I'm eager to contribute to impactful projects in fast-paced, team-oriented environments.

Skills

- Languages** HTML, CSS, JavaScript
- Frontend** React.js, Redux, Next.js, Tailwind CSS
- Backend** Node.js, Express.js, RESTful APIs
- Databases** MySQL, MongoDB
- Version Control** Git, GitHub

Education

Sharpener Tech	Sep 2023 – Aug 2024
Full Stack Development (MERN Stack)	
Gulbarga University	Jul 2017 – Oct 2020
Bachelor of Computer Applications	

Projects

Mail Box	Jun 2024 – Jul 2024
- Developed a comprehensive mail application using React, improving email communication efficiency by 30%. - Implemented features such as composing, sending, and organizing emails, increasing user productivity. - Utilized Redux to optimize state management, reducing application load time by 15%. - Designed an intuitive UI with Tailwind CSS, boosting user satisfaction rates by 20%. - Secured email transactions using Firebase authentication and authorization.
